**Re: In the Matter of Petition of USTelecom for Forbearance Pursuant to  
47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

Competition is the backbone of innovation and ensures that companies deliver value to consumers. Robust competition also avoids the need for more prescriptive, and therefore potentially problematic, regulation because consumer choice provides an ultimate backstop against unresponsive or negative corporate behavior.

Ensure that we have more choice, more competition in the broadband marketplace by not giving in to lobbyists from large broadband companies seeking regulation which prevents competition. You will be on the right side of history.
